01 Introduction

There are 44 Million cryptocurrency wallet users around the globe.

- Cryptocurrency wallet holders
- Global population

Do you realize that they constitute barely 0.6% of the world population? It's because there's a massive obstacle in cryptocurrency's path towards global adoption.

Billions of people around the globe are unable to participate in the cryptocurrency revolution today because of Fiat <> Cryptocurrency conversion difficulty. People in developing and underdeveloped nations form a huge chunk of the global population, and face regulatory uncertainty, banking delays and issues in buying or selling of cryptocurrencies with fiat. Moreover, available fiat on-ramp options have several issues:

- High fiat deposit and/or withdrawal fees
- 2-5 days to process withdrawal
- Custody of fiat funds

The next phase of cryptocurrency adoption happens when the world's Fiat <> Cryptocurrency problem is solved for the masses. BETC will bridge this

global fiat - cryptocurrency gap for the world with our one-of-a-kind solution -
BETC LTD.

This document also introduces BETC, a iGaming transaction Protocol backed by Betchips, and its role in the ecosystem. We launched BETC tokens to involve our community in helping us build out Betchips, and reward them accordingly for contributing to our success. This helps us stay true to the ethos of cryptocurrency and blockchain - to share the rewards of BETC success with our early adopters and supporters.

Token-Economic Policy

Founder's Strategic Basket: 25% of total supply will be used to sponsor the long-term emergence of smart platforms and use cases. This Strategic Basket has fully vested and can be used to invest in platforms, in token swaps, in blockchain games, and more generally in any way in order to promote the growth of the BETC Network of smart platforms and the related use cases.

Ecosystem Development Fund held by BETC Ltd: **20%**. Ecosystem Development Fund disbursements are unlocked in monthly tranches over 3 years. These tranches increase over the first 24 months and then slowly decline until the pool is exhausted. However, based on demand, the Board of Directors of BETC Ltd can modify the disbursement schedule.

Private Sale & Related bonuses: 10% (possible lock up)

Public Sale & Related bonuses: 10% To be allocated: 35%

Circulating supply of the BETC Token will be released and unlocked over time, depending on network growth and actual demand. All unsold tokens in the Private or Public Sales will be burned and transparently accounted for on BETC. The Release Schedule below is INDICATIVE and SUBJECT TO CHANGES.

BETC LTD retains the ability to change anything detailed herein – excluding initial token supply and private sale 2 reward parameters.

VISION

BETC Ltd, incorporated in Cyprus, is responsible for the governance and ecosystem development of the BETC Network of smart platforms using the BETC Token. The BETC Token is the utility and governance token for the BETC Network. The BETC Token serves as a medium of exchange within the BETC Network for various BETC goods and services, including those of BETC's partners. The BETC Token is also used for rewards, staking incentives and ecosystem development programs.

The objective is for the BETC Token to become the iGaming transaction Protocol of reference for the videogame industry, either as an in-game token or as a iGaming transaction Protocol for exchanges of services or products between individuals and/or companies. The BETC Token may also be collateralized to mint BETC USD, a stable USD pegged cryptocurrency which can be used in-game on various BETC platforms, including the BETC Casino and partnerships within the BETC Universe.

Once the BETC Tokens are in circulation, the vision is to transition BETC Ltd into a DAO structure, providing further governance value to the BETC Token. BETC Governors must stake to earn and are incentivized to maximize the overall growth, use and stability of the BETC Token. Governance decisions will initially be determined by BETC Ltd.

Use Cases and Value Capture

Use cases for the BETC Token include acting as medium of exchange for digital asset sales, eligibility for staking programs, participation in BETC Casino Gaming, Sales and Merchandising, compatibility with BETC Universe games and redemption of perishable in-game assets.

Part of this revenue will be captured via the BETC Network's token buyback, burn and staking reward programs. The use of BETC Token also generates membership, super user privileges and fee discounts.

BETC Ltd aims to showcase the broad utility of the BETC Token in the aforementioned use cases and demonstrate how they result in value accrual to the BETC Token.
